

Unofficial Draw Results for the 4T5/4T7 Pilot Halibut Project

Note* The list is unofficial and yet to be verified by DFO. A total of 161 fishers who submitted interest in the project and were entered into the draw. We will be in contact with fishers to explain the details of this second year of a 2-year project and at this point do not know how many will be eligible. There were 9 fishers involved in the project last year. The aim of the project is to collect information on the halibut fishery in this area with hopes of re-opening this area to all commercial fishers in the coming year.
