

# Help Monitor Atlantic Herring Spawning

As you spend time around or on the water, please keep an eye out for signs of Atlantic Herring spawn events which includes milky water, observations of eggs or large congregations of diving seabirds. **If seen please note the location, take a picture and report it as soon as possible.** Your observations will help better understand Atlantic Herring

**Call or Text:**

**902-393-2281 or 506-378-9989**
